# WHO WE ARE

**AZIKEL DREDGING LTD IS A LEADING  
INDIGENOUS DREDGING AND MARINE EXPERT**

Azikel Dredging is a leading provider of creative, innovative, sustainable and all round solution to infrastructural challenges in offshore, costal and inland locations in Nigeria. We maintain ports and waterways in capital dredging, reclaim and sandfilled swamp, flooded and below sea level land mass, we defend coast and protect riverbanks and provide sand and aggregate stockpile for the construction industry

Azikel Dredging ltd is incorporated under the laws of the Federal Republic of Nigeria and has its registered office at Azikel Operational Base, Azikel Close, Obogoro, Yenagoa, Bayelsa State. Azikel Dredging is a subsidiary of Azikel Group.

We have a sustainable and experty indigenous organization with international partners and infrastructure and machinery with networks of suppliers for execution of projects. Our workforce consist of 85% Nigerians at all level of the organizations, with 15% international operational staff for operations.

Our main client include oil and gas companies, Government Agencies, Project Developers in the Construction Industries, Contractors and Individual developers and buyers of sand/aggregate.

# PROVEN NAME IN DREDGING INDUSTRY

PROVIDING SOLUTION FOR INFRASTRUCTURAL CHALLENGES IN THE COSTAL AND ONSHORE DEVELOPMENT

## OUR MAIN ACTIVITIES

- \* Dredging and Land Reclamation
- \* Costal Defence, Regeneration and Riverbank Protection
- \* Sand and Aggregate Stockpile for Retail and Haulage Delivery

Our specialization is in the dredging, land reclamation/sandfilling, sand stockpiling, sea bed desilting, river canalization and shoreline protection. Azikel Dredging has been in business for over a decade and had made success in infrastructural development in the Niger Delta and Nigeria. Azikel early business was the retail of sand to local contractors, which later incorporated in 2008 for capital dredging/reclamation services and shoreline defence with costal regeneration.

# DREDGING AND LAND RECLAMATION

Dredging is one of the core operations of Azikel Dreging Company, of which high level experty has been developed. Our activities in dredging includes deeping and desilting of the sea bed, widening and maintenance of harbors, ports and waterways for improved navigation, land reclamation of swamp and land mass improvement. Our land reclamation is geared towards medium and large scale property development for real estates, towns and cities expansion

Some of our such development was the reclamation of the land mass for the development of Federal University Otuoke and major land sandfilling in the oil and gas, such as the reclamation of 50 hectares of land for the development of Azikel Refinery, the First Modular Hydroskimming Refinery in Nigeria.

Every development is unique and we analyze and deploy specific equipment, technique and well trained skilled staff for optimal job execution and satisfactory completion.

# COSTAL DEFENSE AND RIVERBANK PROTECTION

Our techniques for shoreline protection has overtime proven to be the best in the industry. We stabilized shoreline and protect the riverbank from erosions and flooding. Several communities particularly in the Niger Delta has benefited from our latest and modern methods. We have protected coastal communities treating by extinction from oceanic tidal effect and wave movement and subsequently regenerated the land mass lost. Abalama and Bakana towns in Rivers State are some that have enjoyed costal defense and regeneration from our modern techniques.

Some of our shoreline defense methods (shoreline protection) includes beach nourishment, construction of breakwaters, groyne, shoreline sheet piling, river bank slope and bottom protection works. Azikel Engineering team will deploy a costumed, cost-effective and sustainable solution for specific costal erosion challenges.

# SAND STOCKPILE

## SAND AND AGGREGATE RETAIL

## SAND HAULAGE AND DELIVERY

Azikel sand dredging production capacity is 33,000 tons daily. Azikel Dredging, processes all stockpile sand by removing impurities and drying the sand. Azikel Dredging supplier both high quality dry and wet sand depending on the customer needs. The cumulative stockpile of sand at Azikel Locations is over three million tonnages (3,000,000 tons) of sand, available for retail to individual contractors and construction companies. The stockpile and retail locations are Azikel Operational Base in Yenagoa, located across Swali Market Bridge at Obogoro, in Yenagoa by the River Nun and Azikel Onuebum Stockpile Base, located 15kms outskirt of Yenagoa, Azikoro/ Otuoke road at Otuogori Village.

The Sand and Aggregate Retail is into specific grades of sand with flexible pricing. Azikel premium stockpile of sand ranges in grades of;

- \* Fine Sand
- \* Coarse Sand
- \* Gravels
- \* Filling Sand/Mud

These specific products are retailed in various tonnage to individuals, contractors, wholesale buyers and corporations from our two stockpile Bases at Azikel Operational Base Obogoro Yenagoa and Azikel Otuogori Base Onuebum.

Our automated loading system at our stockpile bases use the loadrite software weighing loading system and further confirmed by the electronic weighing scale, delivering sand in specific and exact quantity in tons and kilograms. This ensures that our customers and client have full satisfaction for the quantity and quality of sand purchased.

We haul and deliver sand to customer's location and construction sites using our modern terrain specialized Iveco and MAN Diesel trucks. We have 57 specialized air-conditioned auxiliary wheeled Iveco and MAN diesel trucks that can access all types of challenging terrains to deliver sand at the comfort of our clients and customers

# OUR FLEET AND EQUIPMENT

Our Equipment are marine and land based fleet. Our equipment are specialized in different job types.

*Our fleet include*

- \* Suction Cutter Dredgers
- \* Suction Trailer Hopper Dredgers
- \* Tugs and Multicats Boats(workboats)
- \* Pontoon and Barges
- \* Booster Stations
- \* Earthmoving Equipment
- \* Trucks
- \* HDPE Pipes
- \* Fusion Machines

We have six(6) modern dredgers in our fleets. The capacity of our dredging machine ranges from shallow water to deep water dredging. The sizes of our dredging machines varies from suction of 18 inches to discharge of 20 to 36 inches, with a pumping capacity of over 1,000 cubic meter an hour.

We have three(3)Boaster Stations in the fleet, with boasting capacity of over 20km, these station are both terrestrial and marine specialized.

# OUR FLEET AND EQUIPMENT

With a pumping distance capacity of 20km in length, Azikel Dredging has 2000 pieces of various sizes of HDPE pipes ranging from 18" to 36" diameter, with corresponding floaters and sinking pipes. All Azikel Dredging HDPE pipes are Electrothermally fused to form one continuous tubing. Azikel Dredging owns 3 of Electrothermal Fusion Machines in the fleet.

Azikel Dredging has in her fleets 4 Workboats, 3 Wilco Swamp Buggies, inclusive of long and short Boom, 8 Excavators Machines, 6 Bulldozers, 57 Modern Iveco and Man Diesel Trucks and 1000Ton Ramp Barge

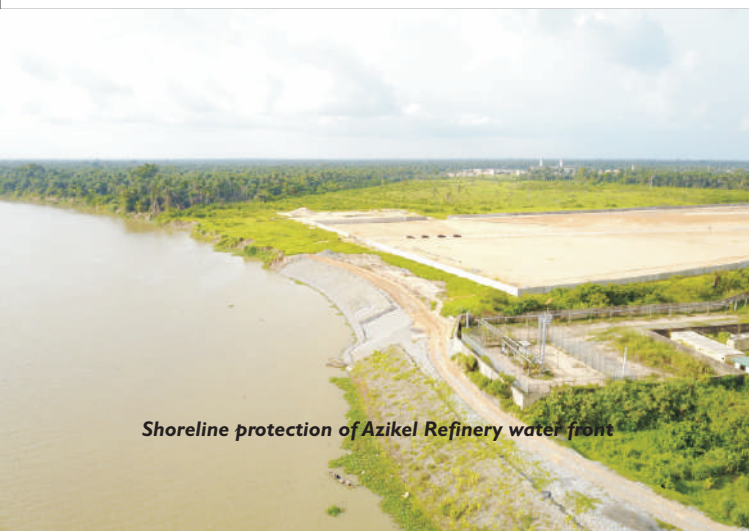

# PROJECTS EXECUTION HISTORY

ongoing reclamation of Abalama town, Akuku-Toru, Rivers State

Shoreline protection of Azikel Refinery water front

Reclamation and Sandfilling of Federal University Otuoke

Reclamation and Sandfilling of 50 hectares of Azikel Refinery Swamp land

Azikel Dredging has significantly contribute to the infrastructural development of the Niger Delta and Nigeria. Some of these critical developments are in massive project infrastructure across the nation, like the East west road sandfilling, building of new cities, educational institutions and development in the oil and gas sector.

## PROJECTS COMPLETED

Some of the Projects executed and completed;

- \* Stockpile of Two Million cubic meter of sand for Setraco Company for the Construction and dualization of the East/West Road
- \* Sandfilling and Reclamation of Otuoke Federal University Permanent Site for the Federal Government of Nigeria
- \* Sandfilling and Reclamation of 19 hectares of Swampy land with Two million five hundred cubic meter of sand for Azikel Petroleum for the development of Azikel Refinery Project
- \* Stockpiling of Sand in the Bayelsa Central Business District Yenagoa for Abbey Court Company
- \* Sandfilling of the Yenagoa Peace Park for the Bayelsa State Government
- \* Sandfilling and Reclamation of Yenagoa Gardens, Bayelsa State with One Million Two Hundred Cubic Meter of Sand
- \* Reclamation and Sandfilling of 25 hectares of Swamp Land for the construction of Pipe mill by Nigerian Local Content Board
- \* Reclamation and sandfilling of 22 hectares mangrove swamp of Abalama community in Rivers State
- \* Reclamation and sandfilling of 19 hectares of mangrove Swamp of Bakana Community in Rives State

# OUR TEAM BUILT ON SPECIALIZATION

**DR. ERUANI AZIBAPU GODBLESS**  
President/Chief Executive Office

Dr Eruani Azibapu a business leader per excellence serves as the President and CEO of Azikel Dredging. Dr Eruani has led the company from inception to her great success. Dr Eruani Azibapu Godbless (born 1973) is a Nigerian billionaire businessman and the owner of Azikel Group, he is a medical doctor by early training, his work careers span through civil/public service, the oil and gas industry and politics.
